CrowdMaster™ 780 Barricade

COMPACT AND PORTABLE

These barricades are smaller and easier to handle than our standard 8'/2.5m units. Made from the same hot-dipped galvanized steel as the 8'/2.5m unit these barricades are just as durable and weather resistant but benefit by being easily handled by a single person. The smaller length also allows better stowage for trucking lowering shipping costs.

CHOICE OF TWO BASE STYLES

Bridge

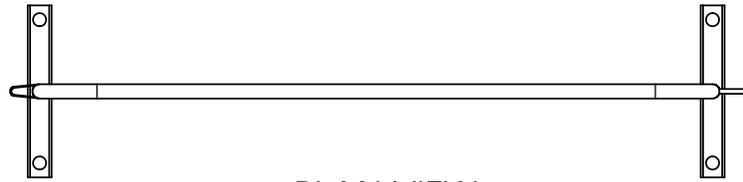

Flat
